Georgios Katsaros
Senior Vice President, North American CMBS
DBRS, Inc.

Georgios is a structuring and quantitative analytics specialist with 14 years' experience in structured finance and 12 years experience in quantitative, physics-based modeling and software engineering. He is responsible for CMBS analytics and methodology development at DBRS, where he previously held roles in credit policy and the internal review function. Until December 2015 he was a founding partner at US-MBS, a mortgage aggregation and securitization platform where he was responsible for whole loan and MBS trading and analytics. He was responsible for quantitative analytics and structuring at Atlas One Financial Group, Collins Stewart and R.W. Pressprich.

Georgios is an author and co-author of articles and research reports shared with clients and featured in industry publications. He has presented at industry conferences, including MBA's CREF Market Intelligence Symposium, the Fixed Income Management conference in Boston, organized by the CFA Institute, and at the Office of the Comptroller of the Currency, Department of the Treasury.

Georgios earned a Structured Products certificate at New York University and holds an M.A. in Economics and an M.S. in Computer Science from Rutgers University, and a B.S.E. degree in Computer Science and Engineering from the University of Patras, Greece.
